SIXTH YEAR. MAYSVILLE, KY., THURSDAY, SEPTEMBER 23, 1897.

ONE CENT.

LARGEST IN THE CITY.

## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to pay for advertising any more than a merchant can afford to pay for advertising his goods or shoes. A newspaper is a legitimate business concern. It is a unit of the community, and the advertisements should be paid for, no matter what part of the paper they appear.

**Hechinger & Co., Headquarters For Fair Visitors.**

It has always been our custom to make our large, commodious store-rooms headquarters for visitors to our Fair. If you have anything with you want taken care of bring it in. It is a pleasure to us to accommodate you. We are also headquarters for the

**Best Men's and Boys Clothing, Furnishing Goods, Hats, Men's and Boys Shoes in the State.**

Just a few words about our Shoes: Many people know the reputation of the Smith & Stoughton Shoe. There are some that do not, but just now it looks as if everybody will know the Smith & Stoughton Shoe. Our sales on these goods, considering that we have them in but a few days, is marvelous. The fit of our Shoe is great, a rare thing for a customer to try on the second pair. The best fitting and feeling Shoe I ever put on is the common remark made upon putting on a pair of our Smith & Stoughton Shoes. See our window display.

### OCURRING AT ORANGEBURG.

What The Ledger Correspondent Records From That Pleasant Valley.

Died, on the 18th inst. Mrs. Martha Thomas, wife of Ben Thomas. She was a faithful wife and an affectionate companion. She bore her suffering without a murmur, and always said she would not suffer over yonder. She was converted five days before she was called, and was a good Christian to meet her in Heaven. Mrs. Thomas leaves father and mother, two sisters and two brothers and many friends. She was a member of the M. E. Church, South. Her funeral was preached by Rev. Jones of Mt. Carmel and interred at Canaan in Lewis county.

## WEEKLY CROP REPORT!

### PROSPECTS THROUGHOUT THE STATE OF KENTUCKY.

#### GENERAL REVIEW.

The week opened with excessive heat prevailing in all parts of the state. From the 10th to the 16th inclusive, the maximum daily temperature over the state averaged 96°. A number of correspondents report a temperature of 104° on the 16th and 17th. Such intense heat was never known before in this section so late in the season. At least it surpassed all records of September weather at Louisville. The mean daily temperature averaged about 15° in excess of the normal for all sections. The heat spell was broken on the 19th, when a change to cooler was heralded by local showers in many parts of the state. As a rule they were light, and occurred mainly in the counties adjacent to the Ohio river, except in the Central section, where they extended as far as the Bluegrass region. In Union, Jefferson, Nelson, Shelby, Fayette, Madison and several counties in the Northern portion of the state the rainfall was sufficient to prepare the ground for plowing. Crofts of all kinds yet outstanding in these counties derived some benefit from these showers, but they came too late to materially affect the growth of corn, which was the main staple yet unharvested. Over the state generally the crop situation has not at this writing changed much since our last report, except that the work of shocking corn and cutting tobacco has been prosecuted most vigorously. It is now estimated that about one-half of the corn crop is in shock and three-fourths of the tobacco is housed. Only a small portion of the crops remained in the field liable to damage by frost, which seemed imminent at the close of the week. A number of our correspondents in districts where considerable corn is yet uncut say it is not safe from possible injury by frost. Late corn is of little account in most parts of the state that farmers are not paying much attention to it. They are cutting the early planted as rapidly as possible, and most correspondents say it will all be in shock within the next week or ten days.

#### WESTERN SECTION.

The situation in this section is that of winding up the crop growing season.

Corn and tobacco, matured or not, are being harvested as rapidly as possible.

Not that the farmers dread the prospect of a damaging frost, but because the extreme heat and drought have reduced these crops to such a condition that nothing can now improve them.

As corn is being laid away a careful estimate of the yield in this section places it at from two-fifths to one-half the average crop.

Tobacco will not exceed one-third of a crop. Bristle to high winds on Thursday blew down immense quantities of winter apples.

Farmers are still compelled to haul water to their cattle or drive them long distances. The situation is becoming very distressing. Very little plowing has yet been done.

#### WESTERN SECTION.

Farm work as it now progresses is the same in this as in the Western section,

except that farmers proceed with it in a happier mood. They have reason to be more cheerful than their neighbors in the Western half of the state, because their crop prospects are about 40 per cent. better.

Corn is estimated at fully three-fourths the average yield and tobacco at two-thirds.

Warm weather hastened the maturity of corn. It is not, however, of the uniform

growth, being spotted and burned in certain localities owing to the uneven distribution of rainfall. Tobacco is being rapidly removed from the field, and by the close of next week there will be none of it exposed to damage by frost. Stock is beginning to suffer from the effects of dry weather. Irish potatos and turnips will not make half a crop.

Tobacco Insurance—John C. Everett.

#### WHAT SHE MEANT.

This Girl Ought to Come Up and Try Our Mayville Boys.

Maudie Mirror.

A few evenings since a young man called on his best girl to spend the evening.

When about to return home he conversed turned to art, and the lady told him that he reminded her of Venus of Milo.

Whereupon the young man chuckled with delight, thinking that it was his symmetrical form that his sweetheart had alluded to.

When he got home he consulted an encyclopedia, and to his deep chagrin and mortification found that the Venus of Milo had no arms.

Then he went down into the cellar and tried to cut his brains out on a soft cushion.

—

#### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one way. The first way is from imperfect action of the kidneys. The second way is from care less local treatment of diseases.

**CHIEF CAUSES.**

Unhealthy urine from unhygienic kid

neys is the chief cause of bladder trou

bles. So the womb, like the bladder,

was created for one purpose, and if not

forested too much is not liable to weak

ness or disease, except in rare cases.

It is situated back of and very close to the bladder, therefore any pain, disease or inconveniences manifested in the kidneys, bladder or urinary passage is often,

by mistake, attributed to female trouble.

The error is in made and may be as easily avoided.

To find out correctly, act your

urine aside for twenty-four hours; a self

analysis or settling indicates kidney or bladder trouble.

The mild and the extraordinary

efficiency of Dr. Klimer's Swamp Root, the great kidney and bladder remedy, is soon realized. If you need a

medicine you should have the best.

Al druggists fifty cents and one dollar.

You may have a sample bottle and pamphlet, both sent free by mail.

Mention the PUBLIC LEDGER and give our address to Dr. Klimer—108—Bluegrass, N. Y.

The Proprietor of this paper guarantees the genuineness of this offer.
